A Worthy Project

James Connellan Is Again Chairman of Local Infantile Paralysis Chapter

Chairman James Connellan of the local Chapter of the National Foundation for Infantile Paralysis, called a business meeting of the Chapter personnel Wednesday at the Post Office in Rockland.

Re-elected as officers were: James Connellan, chairman; Dr. C. Harold Jameson, vice chairman; Miss Eliza Steele, secretary. The above, together with Mrs. Gerald U. Margeson, constitute the Chapter's executive committee.

A medical advisory committee was appointed to enable the Chapter to conduct its medical care program, this group consisting of Drs. F. F. Brown, C. Harold Jameson, and C. D. North. Plans were discussed outlining the annual campaign for fund-raising, to be held the latter half of January.

Postmaster Connellan assumes directorship for Knox County and has named Mrs. Margeson as chairman for the city. Chairmen for other towns in the county will be selected shortly.

The Knox County Chapter is entrusted with donated funds available for direct medical assistance to those disabled or handicapped in whole or in part, as the result of infantile paralysis. The National Foundation supports an extensive program of scientific research to discover and eliminate the cause of infantile paralysis, to immunize its effects and to prevent crippling of those afflicted with this disease.

The Chapter urgently requests that any old or recent victim in Knox County, irrespective of age, race, creed or color, needing medical assistance, braces, appliances, etc., make direct application to any of its officers.

The Foundation representative for State of Maine, Wm. P. Shapleigh of Portland, also attended this meeting.

Major Ingraham came to Boston University from the University of Maine where he was stationed during the past four years as head of the R. O. T. C. unit there. A lieutenant in World War I, he formerly served as a principal in Maine High Schools. He will supervise military instruction and drill at Boston University.

Salvationist Drive

Annual Maintenance Appeal In Union—John Howard Is Chairman

The annual maintenance appeal of the Salvation Army is being conducted in Union and District, with John L. Howard, as chairman, John H. Williams, as treasurer and the following local committee: Maynard Brown, Harold S. Fossett and Dr. Irving P. Tuttle. A quota of \$350 has been set as the objective of the campaign and the chairman, treasurer and sponsoring committee are confident of success.

Letters of appeal have been mailed to the many friends of The Salvation Army. Quietly, unassuming, the Salvation Army carried on, far surpassing in the extent of its present war-time service the splendid traditions established in the first World War.

The present appeal is for the local, general, institutional and military war-time service of the Salvation Army in this country as given by Red Shield Clubs and other units. These are not provided for by the U.S.O. because they are independent of the U.S.O. clubs operated by Salvationists and therefore not eligible for U.S.O. financing.

Thanksgiving Tea

Annual Event At Home For Aged Women Merits Your Assistance

Each year as the blessed time of Thanksgiving approaches, the Directors of The Home for Aged Women prepare to greet the many friends of this institution of mercy who take their gifts of food and money. It might be well to state for the benefit of those who may not know it, that the Directors give freely of their time, money and resources in directing this excellent home, where loving thought is the watchword in every hour of both day and night.

We have all felt the pinch of war time economies, and here we have felt the necessity to strive for no lack of needed comforts for the aged. Your gifts so generous through the years, have done much to aid us in this accomplishment. Every room in the House is taken and we have always a waiting list.

Come and drink a cup of tea with us Tuesday, the 21st, between 2:30 and 5 p. m. You will find this Home presided over by a lady of rare personality, whose tireless efforts keep the atmosphere free from unhappiness and full of the rare qualities sought in American houses where love dwells. And bring your gifts to help us.

FOURTH TERM TERRORS OFFSET BY FEAR OF A CHANGE

Franklin D. Roosevelt, who received a remarkable endorsement from the voters of the United States.

Harry S. Truman who goes back to Washington in new capacity—Vice President.

When Michigan slipped into the Democratic column last night it became apparent that Roosevelt will receive 432 votes in the Electoral College. Dewey gets 99 from the States of Colorado, Iowa, Kansas, Indiana, Maine, Nebraska, North Dakota, Ohio, South Dakota, Vermont, Wisconsin and Wyoming.

With two Senatorial contests still unsettled it is likely that the Democrats will maintain their present status in that branch of the National Congress.

A late House accounting gave the Democrats 241 members, 23 more than an actual majority as against the 214 they now have, the Republicans clinched 186, in contrast with their present 212.

Dewey came nearer to winning the presidential election, from a standpoint of popular votes, than any other defeated candidate since 1916, near final returns indicated. President Roosevelt's margin was 2,989,009, with 45,305,579 votes reported. The President had 24,147,294; Dewey 21,158,285.

Thomas E. Dewey who made a gallant fight against odds which were too big.

John W. Bricker, who made nationwide friends but not enough votes.

Post mortem voting, it would appear

Speaking of freaks, I have had for several weeks a potato from the garden of Elmer Lowe. It's a last year's spud and he sent it in to show how a humble murrphy will not be thwarted in reproducing itself. The potato had consistently and persistently had its sprouts rubbed off through the Spring to keep it in good condition. Checked in that way the spud finally sprouted from the inside burst itself, and little potatoes developed and grew. And since I have had it here these little fellers have sent out sprouts of their own and the outside sprouts have grown and reproduced little ones, too. If the sustenance of the parent perate holds out there is no telling how many generations may develop. The daddy, though, is looking kind of weakened, though perfectly healthy.

I find that in the Twenty-Five Years Ago column I slandered Josh Southard's automobile by making it two years older than it really is. The Chevrolet which he bought in 1919 he retained but two years and it was the Special Studebaker which he selected as its successor that he is still driving. And it's still going strong.

A Main street merchant offered to bet a Main street insurance man that President Roosevelt will not live out his term of office. "Which term fourth or fifth?" asked the insurance man. "And if you knew the identity of the insurance man you would be especially interested."

"In answer to Mr. Philbrick," writes Jennie Howard of Nobleboro, "I can remember when men worked for small wages. I used to work for 10 cents an hour 25 years ago, but the past Summer I have done the hardest work of any woman in Knox or Lincoln counties and received \$8 for the whole season. What do you think of that? Mr. Philbrick tell me another one."

Writes Elmer Allen of Tenants Harbor: "Following is part of a song I heard my mother sing a long time ago. I hope someone knows the whole of it and will print it in The Courier-Gazette. IN FLANDERS FIELDS

In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.
We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe;
To you from falling hands we throw
The torch; be yours to hold it high;
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

Book Review

K. S. P.

Old Mrs. Camelot. Author, Emery Bennett. Published by The Blackstone Company, Philadelphia.

Yes indeed, you will get a great deal of enjoyment out of this story as you meet the different characters, all distinctive in their own special line. Plot laid in England in the quaint, rather dead village of Croome where old Mrs. Camelot was found dead in a gas filled room and it was felt she was the victim of gas poisoning.

The new favorite in her grand home was pointed out by the old lady's friends who felt she was the guilty one. And that idea led through chapters of finding out. It is a well worked out tale with Robina Arams the friend and weary searcher for proper billet to suit her need in war world for a home.

Searching for a place to live, she finally lands in the mansion of old Mrs. Camelot. This is a novel with a mystery to hold one to the end.

Well written, clean and dramatic to the nth degree. Well set up in style, a sweet love story follows through to the end. Good week-end reading. Kathleen S. Fuller

Armistice Day

TWAS AN ELECTION PARADOX

The presidential election is over and the country has gone emphatically on record as desirous of keeping President Roosevelt in the harness until the war is over. The Democratic nominee has a ponderously large majority in the electoral college, and that party will control both the House and the Senate, but the election finds its paradox in the fact that Roosevelt's popular majority of less than 3,000,000 is far short of the majority which he had over Wendell L. Willkie four years ago, although Willkie did not receive nearly as many electoral votes as Gov. Dewey. The reason for this is that while Roosevelt carried a number of the large States by very small majorities he benefited by their heavy electoral vote. New York State was an exception, for Roosevelt carried that by a very sizeable majority. Those of us who supported the losing side find no disgrace in being numbered among the 23,000,000 voters who cast their ballots for Dewey, even though our diet must be crow while the winners are feasting upon the fat of the land.

What meantime has become of those blatant prophets who said that Roosevelt was going to carry every State in the Union? What has become of Drew Pearson who saw Maine as going Democratic, whereas it went Republican by twice the size of the Republican majority of four years ago.

Gov. Thomas E. Dewey who promptly and graciously conceded his defeat in the early hours of Wednesday morning is doubtless correct when he attributes his downfall to the war, because there were millions of Republicans, who thought rightly or wrongly that its successful conclusion might be in doubt with F. D. R., at the helm. But as much as we regret to say it we feel that there was another potent cause and we are justified in that feeling by the remarks we have heard since election. Gov. Dewey made the same mistake that the late Wendell Willkie made four years ago by the radical accusations he hurled at the President, intimating among other charges that there was dishonesty of purpose on the part of Mr. Roosevelt. The President met those charges in the most effective manner possible by laughing them out of court. Gov. Dewey must have known that he was fighting a smooth, slick opponent who was well able to parry his thrusts, and who was directing his talk to sympathetic audiences. Therein Dewey's youth failed him.

But it's all over and party lines will disappear in the coordinated effort of putting our shoulders to the wheel. In practically all of the felicitations extended to the President since his election to a fourth term has been included a wish for his good health during that term. We believe that everybody shrinks at the possibility of Vice President-elect Truman succeeding to the Presidency. The faith which the country has in F. D. R. apparently does not extend to the Missouriian.

AS TO ELECTION RETURNS

The Courier-Gazette made no attempt to cover the national election returns Tuesday night, knowing full well that there is a radio in practically every home, and that the owners could get better results in that manner. And what a far cry it seems back to those days before the radio came into use, when we broadcast the returns through the medium of Western Union despatches. And when sometimes two or three days elapsed before either party was willing to concede an election. Those days had their humors. For instance when William Jennings Bryan made his first run for the Presidency, he was defeated in a vote of landslide proportions, but the Democratic National Chairman, Jones of Nevada, if we remember correctly continued to claim Bryan's election for a week or longer.

Our efforts on election night were bent toward the collection of the Knox County returns which were demanded by the big press associations because Maine was expected to be close. The reasons for this appeared to be that Maine was really close when Wendell Willkie ran, and the statement of Drew Pearson, whose "prediction of things to come" had contained a prophecy that Maine would go Democratic. Those who heard the returns Tuesday night and learned that Maine was for Dewey by more than 15,000 majority were minded to send Drew a telegram advising him to go jump in the lake.

The Knox County returns were compiled (with the exception of the seagirt Isle au Haut) in one and three quarters hours, a commendable piece of work made possible by the prompt and earnest efforts of correspondents in the various towns. The Matineus polls closed at 5 o'clock and the first returns came from that plantation, phoned by Horace Young. The first mainland town to report was South Thomaston, phoned by David Pollock and very soon thereafter came the returns from Hope, sent in by Jethro D. Pease.

The Courier-Gazette is deeply grateful to them and all others who furnished returns, together with Sheriff C. Earl Ludwick, County Attorney Stuart C. Burgess and Fred C. Black who co-operated in the tabulation.

HAZARDS OF WINTER TRAFFIC

The slippery going resulting from Monday night snow and sleet storm was a reminder of the hazardous days which face the nation's motorists. The annual reminder to drivers and city and county highway departments is being issued this early, Lieut. George I. Shaw says, because of the reduction in the country's irreplaceable stock of automobiles and because of a sharp increase in last Winter's mileage death rate over the previous Winter. All truck fleet operators and others should make immediate check of defroster units, anti-skid chains, heaters and windshield wipers and have adequate anti-freeze. Winter accidents in the 36 snow belt States last year, caused the mileage death rate to increase 53 per cent over the Summer rate, while more than usual snow and ice south of the Mason Dixon Line caused a jump of 24 percent in the other 12 States.

We also want you to know, out of sight is not out of mind, and that we are hoping, thinking and planning for the day when you will all return to your home and community.

As a student at Rockland High, he was very active in athletics—a letterman—wrote for the school paper and annual, sang in the glee club, was a member of the H-Y and the 4-H Club, and won the Thespian's High Honor in dramatics. Now, in Oberlin, Mr. Welker is planning to make a career of Naval Architecture. His parents are Rev. and Mrs. Roy A. Welker of Beech street.

Lt. (j.g.) Miles R. Sawyer of the U. S. Maritime Service was guest at the last Sea Scout meeting and gave a brief exploration of navigation as seen on his trips in a Liberty Ship. He showed how to fix the ship's position after taking sights with a sextant. He also exhibited books on navigation and told how they were used. Sawyer told of some of his experiences while crossing the North Atlantic and his description of storms at sea were very interesting, especially his account of the hurricane that his ship passed through. He also answered numerous questions about life aboard ship and of training of officers etc. A letter from Joe Wilkie, a Sea Scout now in the Navy, was read at a recent meeting. Joe has seen a bit of excitement, having been present at and also taking part in the invasion.

This was done under the supervision of Edgar L. Newhall.

The stage has taken on a truly Hungarian appearance for the Senior Class Play, "Seven Sisters," the setting of which is in the once besieged city of Budapest, the once beautiful capital of Hungary. Although the stage crew, manager, Douglas Curtis and assistants Lawrence Blood, Karl Hurd, William McLellan, Curtis Stone, Ervin Wooster, Kenneth Chatto, Robert Gametombe, have worked constantly their work will continue until the authentic effect is acquired. Their tireless effort, together with the work of the property manager, Margaret Jackson, with his assistant, Elaine Glendenning, and the costume managers, Wendell Webber and Sylvia Adams is very necessary to a successful production.

"Available and Experienced" says the advertisement on page 3 of this issue of Henry M. deRochemont, plumber and heating engineer. The ad speaks truly, for Mr. deRochemont set up a plumbing shop of his own in Rockland in 1909, and worked successfully at his trade in this city until a year ago when he was drafted by the Portsmouth (N. H.) Tool Co. Now he is back in Rockland and is to open up today at his old stand 106 Pleasant street. He will be welcome not only because he is needed badly in a business way, but also because he is strongly interested in religious, civic and educational affairs of the city.

Many Rockland stores will be open tonight and closed all day tomorrow, Armistice Day. Many other stores will be open Saturday as usual.

New Coupons Valid

But the New "A" Book Provides Same Monthly Ratio of Gas

The Maine OPA today reminded motorists and filling station operators that the new "A-13" coupons in the new "A" gasoline ration books will be worth four gallons instead of three. The new "A" coupons became valid Nov. 9.

Only three "A-13" coupons in the renewal book will be valid for the East Coast. Dec. 21, all "A-13" coupons throughout the country will expire simultaneously, and the next day, Dec. 22, "A-14" coupons will become good in all areas.

The new "A" book will provide the same monthly ratio as the old—eight gallons, or approximately 120 miles a month. However, instead of having eight coupons worth three gallons apiece, motorists will have (after Dec. 22) six coupons worth four gallons apiece for each three-month validity period.

Events of First World War As Told By "Lucky Frank"—A New Member

"Knox County's Part in the First World War" was the subject of Frank A. Winslow's talk at the Lions meeting Wednesday at the Thorndike Hotel. Interesting references were made to outstanding events of that period and to several of the persons connected with the war effort in this county.

Mention was made of the Naval Training Station, located opposite Rankin Block; the sinking by submarines, of six vessels, three of which were built in Knox County; the free Navigation School, conducted here by Capt. Charles R. Magee and Machias by Capt. Louis A. Crockett; the departure of the first draftees Sept. 4, 1917; the closing of stores Monday, because of fuel shortage; the Prof. Tubbs incident at the Baptist Men's League meeting, and many other events, and persons.

He closed with a description of the Armistice announcement, followed by parade, led by R. S. Ingraham's Band, and a mass meeting in the Universalist Church. Open forum followed Mr. Winslow's address.

It was announced that the members of Red Jacket Sea Scouts would present the program next Wednesday. Allen Jones of Portland was guest of a member, Howard P. Crockett, with Dr. Blake B. Annis at the piano, led the song session.

Winfield Rea Horner, station agent at Rockland for the Socoy-Vacuum Oil Company, was introduced as a new member of the club. Howard P. Crockett, program chairman, introduced Mr. Winslow—by R. S. S.

OIL HEATING STOVES

A critical shortage of oil heating stoves is now developing in Maine and other sections of the nation, Anso N. Cook, Maine OPA Fuel Oil and Stove Rationing Officer, declared today. He said the present quota provides less than five oil heating stoves for each Maine household per month. Cook pointed out that manufacturers' inventories, nationwide, are now up to 50,000, but these manufacturers have a backlog of certificated orders totaling 52,000. The Maine OPA Stove Rationing Officer said applications for oil heating stoves far exceed quotas at practically all Maine War Price and Rationing Boards.

Dr. Louis Hutto, director of physical education in the State Department of Education, as speaker Tuesday at Parent-Teacher Association, pointed out the necessities of such a program in Maine schools, for physical and mental development.

He also gave points on the national program being planned by the American Medical and Dental Associations, and the American Legion, and other bodies, to prevent the tragedy of what has happened to American young people, the past few years. This action has followed General Hershey's concern over reports of draft boards regarding medical examination of young men for military service.

Figures show that mental deficiencies, and unbalanced mentalities are on the increase. "Children's tissues and muscles grown over the period of development, and a training program after a young man is in the service, is superficial, unless the foundation is there," he went on to say. The physical program is intended not only to build physique, but also mentality, and team work.

Dr. Hutto will survey the progress being made in local schools, in this program, which was started in September. During the business meeting it was voted to change the meeting date from the first Tuesday of the month, to the second Tuesday.

The public library will be closed all day Armistice Day.

Bray-Elwell

Everel Elwell and Marcus Bray Ph. M. 1c US Navy were married Saturday night at 8 o'clock at the home of Mrs. Rodney Bucklin, West End. Miss Elwell is the daughter of Mr. and Mrs. Austin Elwell of St. George. Mr. Bray is the son of Mr. and Mrs. Leonard Bray of Cincinnati, Ohio. A double ring service was solemnized by Rev. Mildred McLean.

The couple was attended by Mrs. Roseline Arrey and Thomas McLean. A reception was held after the ceremonies. Those attending were: Mrs. Rodney Bucklin, Mrs. Arthur Bucklin, Miss Ruth Page, Mrs. John Matson, Mr. and Mrs. Thomas McLean, Miss Evangeline McLean of this town, Mr. and Mrs. Austin Elwell, Mr. and Mrs. Forbes Taylor, and daughter Carolyn, Mr. and Mrs. Alfred Rawley, Mrs. Mary Monahan and Mrs. Edward Monahan, of St. George. Mr. and Mrs. Lawrence Hamlin and Harlan Davis of Rockland, Mrs. John Nice and Mrs. Letha Seavey of Ellsworth.

Mr. and Mrs. Bray received many nice gifts. They are now on a wedding trip to Boston.

by Roy Bell, who was elected chairman. The following officers of the local association were elected: President, Roy Bell; vice president,

Roy R. Bell

Mila McLellan; secretary, Nellie M. Tibbetts; treasurer, Zenas W. Melvin; directors, Eugene L. O'Connell, Benjamin Smalley, and Donald B. Chase. Benjamin Smalley was elected Councilor, to represent the local association at the State Association meetings.

The subject of dues was discussed, it being suggested that a fund be built up to defray expenses of Councilor's trips to the State meetings, for flowers or other remembrance in case of sickness or death, or on other occasions where we might wish to send a remembrance or extend our good wishes. It was voted to pay 50 cents for the next two pay days, then drop the amount to 25 cents until further notice. These dues are for the local association only.

There was an open forum for discussion regarding a name for our local association, and the name of "Maine State Prison Employees' Association" was chosen.

President Roy Bell suggested that the directors also act with the treasurer in seeing that flowers are sent in case of death in the family of any of the members, and to see that a member is remembered when sick, the committee to use their own discretion in choosing a suitable remembrance.

After a short discussion, it was voted to give those now working at the Prison—and not present at this meeting—30 days in which to decide whether they wish to join the Association as charter members or not.

The directors were asked by President Bell to draw up by-laws and a constitution for the local Association, and he also stated that there should be another meeting in 30 days.

The meeting of the Prison group was then adjourned, and the members rejoined the State Association officials and other guests.

Directors' Report Shows How Busy Camden C. of C. Has Been

The activities of the Camden Chamber of Commerce for the past year are well summarized in the annual report of the Board of Directors, from which the following extracts are made:

The program of the Chamber has been streamlined, with "frills" eliminated. Of first importance has been the all-out effort to win the war; to try to solve problems faced by this community in adjusting to wartime conditions; and plan for post-war employment. To head the report for 1944, it is an honor to place the names of sixteen Chamber of Commerce members in the armed services; and to pay tribute to the courage and gallantry of 1st Lieut. Ora Brown, Jr., U. S. A. A. P. who was killed in action over France.

Members now in the Armed Services are: Comm. H. L. Apollonio, M. C., U. S. N. R. Sgt. Roger Calderwood, U. S. A. A. P. Comm. Rexford Daniels, U. S. N. R. Corp. Merrill Drinkwater, U. S. M. C. Lt. This community sustains a heavy loss in the transfer of Rev. Charles A. Marshall and his very eminent wife, estimable and intellectual wife, to the Bangor church. Their deep religious interest and their hearty neighborliness to all with whom they came in contact, has placed them deep in the hearts of this section of the state. Bangor gained much in this new appointment and congratulations go to them.

Mrs. Maud Howe Elliott's 90th birthday anniversary was observed with a reception in her honor at the Art Association which she founded. The word "cranberry" comes from "crane-berry." The flowers and globular fruit on slender, curved stalks evidently suggested the neck of a crane.

Cranberries are cultivated in New Jersey, Wisconsin, Oregon, and Washington State, but nowhere on such a scale as in the Plymouth County and Cape Cod sections of Massachusetts.

Those who think a cranberry bog "just grows that way," with nothing for the owner to do but hire a band of pickers and send the crop to market, have much to learn. The cultivation of the tart fruit, without which no American Thanksgiving or Christmas dinner is complete, is a long and painstaking process. And it is not a cheap one.

In some parts of the country apples mean apple butter, and once, in "those parts," apple butter meant "apple butter boilings." Long before state highways and motor cars brought visitors to Winchester, Virginia, for the festival of blossoms through the springtime valley, in the Shenandoah mountains, in the Alleghenies, and sometimes in the mountains of southern Pennsylvania, making apple butter was the occasion of a community-wide festival. Apple butter boilings are still held, but now only as a revival of an old custom.

A host of traditions go along with shipbuildings. Coins often are placed under the masts of a ship during its construction. The tradition dates back antiquity and seems to stem from the old Roman custom of burying coins with the dead to pay Charon's fees for ferrying them across the River Styx.

Comment on the paintings of Waldo Pierce of Bangor, by Lawrence Dame in the Boston Herald, includes the following: "Why is it that Waldo, with his expansive sweep of color, his broad, free but sure drawing that seems as much a part of the outdoors as a pine tree, has not caught on in New England? Certainly this son of Bangor has more depth, more labor behind his work, more lively depiction of the American scene than most of his contemporaries."
